**Duration**
As per number of purchased days.

**Target audience**
Medical Physicists, Radiation Therapists/Radiographers and Radiation Oncologists and other department staff who are interested in being part of a continuous education plan.
Recommended Group size: Up to 6 people.

**Prerequisites**
The attendees must have a working knowledge of the radiotherapy clinical work process.

**Aim**
To keep staff up to date with the latest technological advances and ensure a sustainable high level of technical knowledge while continually enhancing skill sets. To fully exploit all technological potential thereby maximizing return on investment and increasing efficiency.

**Program**
Each customer site is treated on a case-by-case basis. Our Application Specialists are trained to identify all areas where efficiency may be enhanced by furthering the appropriate skill sets. As an example, these focus areas may be:
- Image post processing advanced training.
- Quality Assurance and safety advanced training.
- Monitor and improvement of the current clinical workflow.
- Continuous education (including new staff).
